

park tretinoin response and pml rara fusion

p.adjust: 3.133323e-02 (method: BH)

Genes up-regulated by tretinoin (ATRA) [PubChem=444795] in U937 cells (acute promyelocytic leukemia, APL) made sensitive to the drug by expression of the PML-RARA fusion [GenelD=5371;5914].
